

WOMENHEART

THE NATIONAL COALITION FOR
WOMEN WITH HEART DISEASE

WomenHeart Champion Agreement

If accepted to the WomenHeart Science & Leadership Symposium, I agree to the following:

- Attend the WomenHeart Science & Leadership Symposium in person in its entirety from October 7 through October 10, 2022.
- Pay for my own travel to and from the Science & Leadership Symposium. I understand WomenHeart will cover the cost of tuition, materials, hotel room (double occupancy) and meals for the entire training.
- Complete the following required preparation prior to the Science & Leadership Symposium:
 - Take a survey that allows WomenHeart to assess attendees' knowledge
 - Watch all pre-symposium sessions in their entirety and complete the required quizzes for each session
 - Read the Champion manual and all course materials prior to the Science & Leadership Symposium
 - Maintain and check a working email address at least twice a week to receive updates prior to the Science & Leadership Symposium
- Commit to a minimum of two years of volunteer service as a *WomenHeart Champion*, engaging in at least one (1) volunteer activity per month and reporting all volunteer activities to WomenHeart monthly.
- Adhere to all WomenHeart Policies & Guidelines.
- Stay in monthly contact with my region's assigned District Leader and participate in scheduled District Conference Phone/Video Calls.
- Adhere to, and utilize, WomenHeart Branding Guidelines when developing any promotional materials.
- Share the benefits of WomenHeart membership (e-newsletters, educational webinars, etc.), and encourage other women with or at risk for heart disease to join.
- Read WomenHeart e-newsletters (Heart to Heart, and Champion Digest) and other communications from the National Office to stay up-to-date on organizational information.
- Identify and encourage women to apply to upcoming WomenHeart Science & Leadership Symposiums.
- Refrain from participating in any activities that conflict with the mission or values of WomenHeart. Opportunities in conjunction with competing organizations should be relayed to National Office.
- Agree that WomenHeart will be your main organization for heart health fundraising.

I understand that WomenHeart offers a variety of volunteer opportunities and I will be able to choose the activities I would like to engage in. If at any point I want to start a WomenHeart Support Network, I understand that I must first contact the National Office to discuss my community's needs. Under no terms can I start a WomenHeart Support Network without getting approval from my National Hospital Alliance member hospital and WomenHeart National Office.
